

McGregor Plant Sales

Unrooted Cuttings

2006 / 2007

Made Easy from Florexpo Costa Rica Direct to Door

FLOREXPO

 **Four Seasons**
The easy, reliable URC choice all year

EASY

“Our shipments arrive on the same day each week, like clockwork. Confirmations & invoices arrive in a timely manner with correct pricing. I love that. The online ordering system is user friendly and makes my high volume ordering a snap. I not only use it to place orders; but also to check availability and our pricing. If there’s ever a problem or question, I email our rep, Lori Crawford. She’s quick to respond, honest, extremely knowledgeable about her product and helpful.”

Linda Michels
Purchasing
Midwest Groundcovers

“This website has made my job much easier. Now, I have the ability to see the most recent inventory, order product, and change my orders with just a few clicks of my mouse. Plus I’ve gained the convenience of being able to do so when it fits into my schedule. It sure comes in handy all those late nights during the busy season.”

Tracy Clark
Wenke Greenhouses

“With late orders and changes to our customers production programs I find McGregor Plant Sales’ online web access a very valuable tool. It allows me to place and adjust orders as needed and also gives me the opportunity to view availability for the upcoming weeks. If I have questions or need help in placing an order I can always count on my customer service representative’s quick response. I have found over the past three years that McGregor Plant Sales has made it easy to do business with them.”

Joe Santana
General Manager
Integrated Botanics

“Florexpo unrooted cuttings have given us one of the most significant shifts in perennial production in the last ten years. I am able to produce more plants, at a higher quality, in a shorter time, with lower overhead. The cuttings are always very high quality and the supply is dependable.”

Florexpo

Costa Rica

Where High Quality URC Plant Stock Thrives

All production is done at Florexpo, which is a model of efficiency, using the latest protocols for very high quality, virus-free plants in high volume. It covers over 80 acres with 55 miles of production benches.

In Costa Rica's ideal growing climate, the industry's most popular plants thrive and grow vigorously. Unrooted cuttings are harvested, carefully packaged, tagged, bar coded and then boxed with insulated temperature controlled containers for expedited shipment to our customers around the globe.
