

# When you can't afford to be wrong

**FCI FlexSwitch® flow, level and temperature switches**

FCI FlexSwitch® flow switches combine thermal mass flow technology with fail-safe, dual alarms in an all-welded, sealed package. These switches are unaffected by changes in temperature and pressure, achieve superior repeatability, and are fully field configurable to optimize installation accuracy. For performance and reliability, FCI FlexSwitch is the choice.

Call FCI toll free today at 1-800-863-8704 for a free CD Catalog and Applications Guide created for your specific industry.

a limited liability company

## Applications

- >> High/low pump flow protection
- >> Coolant and lubrication seal leakage
- >> Relief valve monitoring
- >> Tank and sump level detection
- >> Chemical additive verification

## Switch Performance

- >> Built-in calibration system
- >> Temperature compensated for accuracy and reliability:
  - > Flow:  $\pm 0.5\%$  of reading
  - > Level:  $\pm 0.1$  inch
- >> Fast response
  - > As low as 0.5 seconds
- >> Approvals: FM, CSA, CENELEC, ATEX
